## DETAILED ACTION

The amendments to the claims and specification have been entered. Any objection/rejection not addressed from the previous office action filed 08/24/2007 has been withdrawn.

### *Response to Arguments*

Applicant's arguments, see Applicant Arguments/Remarks Made in an Amendment, filed 10/12/2007, with respect to the rejection(s) of claim(s) 26-29 over Buhler et al. and El-Nokaly have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Bergemann et al (US 6,096,699).

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

> (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

The factual inquiries set forth in *Graham* **v.** *John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 26-27 and 29-34 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bergemann et al (US 6,096,699), this new rejection was necessitated by applicants amendments to the claims.

Bergemann teaches a composition that is a homogenous liquid comprised of A) 10-90% lactate ester, B) 10-90% of an edible oil ester (including corn, mustard, olive, peanut, poppy and the like, thus meeting flavor or fragrance material), C) 0-25%, or more preferably 4-7% surfactant and D) 0-10%, or more preferably 4-7% thickener including hydroxypropyl cellulose. See abstract, col 3 lin 14-col 5 lin 50. The weight % of the edible oil overlaps with applicants claimed invention, therefore applicants claimed range is obvious over Bergeman because a prima facie case of obviousness typically exists when the ranges of a claimed composition overlap the ranges disclosed in the prior art. Regarding claims 29 and 34 which limit the surfactant, firstly the lactate ester A) from above meets the limitation of a mono or di-glycerol ester of a fatty acid and

secondly Bergemann incorporates by reference all surfactants including sorbitol esters included within the International Cosmetic Ingredient Dictionary, 5th ed.

***Conclusion***

No claims are allowed at this time.

Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
